

YASIR FAZAL KHAN

 Frontend Developer |  9313911094 |  yasirkhan8104@gmail.com

Experienced Front End Web Developer specializing in HTML/CSS, JavaScript, and React. Skilled in creating intuitive, user-friendly websites and applications

Technical Skills & Expertise

Languages	HTML, Javascript, Typescript & Basic Node Js
Library & Framework	React JS & Next JS
Designing Tools	CSS, Bootstrap & Tailwind CSS
State Management	Redux toolkit & Zustand
Version Control	Git and GitHub
Others Things	RESTful APIs Integration, Responsive Design, Problem Solving, UI/UX Optimization.

Work Experience

React JS Developer, Zithas Technology Pvt Ltd – Vadodara, India (Full-Time)

JUNE 2023 – PRESENT

- Built responsive **React.js** applications with modern state management tools (**Redux, Redux Toolkit, Zustand, Context API**) and **integrated REST APIs** for dynamic data.
- Collaborated closely with designers and backend teams, enhanced existing components and developed key features including authentication, payment integrations, real-time Notifications with WebSockets /Socket.IO, and optimized UI/UX across dashboards

Projects

1) PropUser - Real Estate Platform (React.js, CSS, Bootstrap, Axios, Moment Js, Leaflet Maps)

- Built a complete real-estate browsing and reservation UI using React.js, React Router, and Bootstarp.
- Integrated Leaflet maps** to show interactive property locations using coordinates, helping users easily see the exact place of the property they are interested in.
- Created reusable UI elements for showcasing properties, applying **detailed filters**, and handling booking inputs.
- Developed a **dynamic blog and news** section to keep users informed about property trends, updates, and related insights.

2) Jean Therapy (React.js, CSS, Bootstrap, Axios, Moment Js, AntD, React Big Calendar, Stripe)

- Developed the **Admin panel** to manage customers, therapists, therapy courses, Zoom session schedules, payment history, and profile settings.
 - Implemented the **Therapist dashboard** where therapists can create availability slots, handle upcoming sessions, accept/decline appointments, view schedules on a calendar, and manage their profile.
 - Created the **Customer dashboard** enabling users to book therapy sessions by choosing a course, therapist, time slot, and completing payment through Stripe.
 - Added **calendar views** and list views for customers to easily track their booked sessions and join them on time.
-

Work Experience

Frontend Developer, Lion Fragrance – Ahmedabad (Remote – Part Time)

DEC 2022 – MAY 2023

- Building responsive webpages and constructed HTML for Lion fragrance.

Project

Lion Fragrance - Perfume Website

- Worked on fully functional Ecommerce Perfume website
 - Maintain and Develop Features for website based on requirements.
 - Improve UI/UX and optimization to increase overall speed.
 - Tech Stack: HTML, CSS, JS, PHP, MySQL
-
